**GOVERNMENT OF SASKATCHEWAN AND AHTAHKAKOOP
CREE DEVELOPMENTS MARK THE NEXT STEP TOWARD A
NEW SASKATOON URGENT CARE CENTRE**

A new Urgent Care Centre (UCC) is one step closer in Saskatoon, with the signing of an interim project development agreement between the Government of Saskatchewan and Ahtahkakoop Cree Developments (ACD).

"The Saskatoon Urgent Care Centre is a vital part of our government's commitment to delivering health care services that meet the needs of the community," Premier Scott Moe said. "This unique partnership with Ahtahkakoop Cree Developments is enabling us to do that in a way that also looks to ensure future economic benefits for First Nations."

When complete, the UCC will provide enhanced access to quality patient care for Saskatoon residents with an illness or injury that requires urgent attention. The UCC will be available 24 hours a day, seven days a week and will be located at the former Pleasant Hill School site at 215 Avenue S South. The close proximity to St. Paul's Hospital will help to mitigate some of the capacity pressures in the emergency department at St. Paul's Hospital.

Term of office for all positions is two years with option to extend!

UNSAFE VEHICLES REMOVED FROM HIGHWAYS DURING THREE DAY CAMPAIGN

CVSA International Roadcheck

103 vehicles
removed from highways

81 vehicles
had mechanical defects

148 vehicles
passed inspection

The Saskatchewan Highway Patrol in partnership with SGI removed 103 unsafe commercial vehicles from Saskatchewan highways during a Commercial Vehicle Safety Alliance (CVSA) International RoadCheck campaign.

There were 332 inspections performed at the Langham scale with 31% of vehicles and 4.8% of drivers placed out of service. There were 148 trucks/power unit and 82 trailers that passed inspection and received CVSA decals, which are applied if no critical violations are detected during eligible inspections. The other 81 vehicles had mechanical defects that were allowed to continue with the expectation that the defects are corrected before the vehicle takes on its next load.

International RoadCheck is the largest targeted enforcement program on commercial motor vehicles in the world, with nearly 15 trucks and motorcoaches inspected, on average, every minute across North America during a 72-hour period.
