INVESTING IN SECOND STAGE HOUSING

Growth that Works for Everyone

MLA Ken Cheveldayoff on Funding Second Stage Housing

*Ensuring safe accommodations
for survivors of interpersonal
violence and their children is an
integral part of our ongoing
work to improve community
safety across our province.*

**Saskatchewan
Party Caucus**

This year's budget includes a key investment in operational funding for second stage housing so women and their children will have access to safe, affordable, long-term support to break the cycle of violence and help them rebuild their lives.

This funding is part of our government's overall commitment of \$27.5 million to combat the serious, complex issue of interpersonal violence. Violence and abuse have no place in Saskatchewan.

Ensuring safe accommodations for survivors of interpersonal violence and their children is an integral part of our ongoing work to improve community safety across our province. We appreciate the amazing work that our community-based organizations do and thank them for their support, as this important work continues.

REPORT FROM THE LEGISLATURE

Last week we celebrated Saskatchewan Tourism Week, a week dedicated to bringing attention to the vibrant and diverse tourism sector. Now is a great time to start making vacation plans in Saskatchewan and discover something new this summer. To ensure everyone can enjoy our province's beauty, the Government of Saskatchewan continues to invest in provincial parks and highways in the 2023-24 Provincial Budget.

The 2023-24 Provincial Budget includes nearly \$14 million in capital projects and upgrades for Saskatchewan's Provincial Parks. Sask Parks has also introduced a new events guide that includes all interpretive programming, theme days, special events and summer cinema locations. Parks reservations opened online on April 3 for seasonal campsites and April 4-12 for nightly reservations and remain open on the Tourism Saskatchewan website. To view the new events guide, make a camping reservation, shop for Sask Parks apparel or learn more, visit tourismsaskatchewan.com.

As people prepare to head out on Saskatchewan's roads for their vacations this summer, our government is investing in roads and highways to ensure they remain safe and accessible. In the 2023-24 Budget, \$776 million is invested into operating, maintaining, building and improving roads and highways. This includes constructing twinning projects on Highways 6 and 39 between Regina and Weyburn, completing the passing lanes and widening on Highway 5, and upgrading Highway 15 east of Kenaston. Several gravel, pavement and road maintenance projects will begin in northern Saskatchewan. In addition, the budget will fund planning to extend the twinning of Highway 5 east of Saskatoon and the final phase of the Saskatoon Freeway functional study.

Our government set a Growth Plan goal of improving 10,000 kilometres of highways between 2020 and 2030. After this year, over 4,600 kilometres will be completed, which is well ahead of the pace needed to meet this target. With this year's budget, more than \$12 billion has been invested into transportation infrastructure since 2007, improving more than 19,400 kilometres of provincial highways.

Improvements to Saskatchewan's provincial highways and roads ensure everyone can get where they want to go safely. To learn more about this year's highway projects or the 2023-24 Provincial Budget, visit [Saskatchewan.ca](https://www.saskatchewan.ca).

WE CAN FINALLY OFFICIALLY WELCOME SPRING!

i hope everyone is enjoying this beautiful weather we have been waiting for. It's great to see people outside walking, biking, cleaning their yards and just enjoying this Saskatchewan spring.

Being outside after a long, cold winter is great, but when it makes you itch, sneeze, or cough, it doesn't feel so good.

Tips for managing your allergies:

- 🤧 watch the pollen counts and stay indoors when they're highest, which is often in the afternoon
 - 🤧 keep the windows in your home and car closed, if possible
 - 🤧 some people also find a quick rinse of their nose with salt water works well, but that can take a little getting used to
 - 🤧 after spending time outside, it can help to take a shower, change your clothes, and even rinse your eyes with water or saline drops
 - 🤧 a pharmacist can also help you choose the right kind of medicine if symptoms become too much
- Managing allergy symptoms can make you feel a lot better but it can also take time to figure out what works best for you.

SPSA INVESTS IN WATER BOMBER TO HELP FIGHT WILDFIRES

Photo credit Lindsay Newman/980 CJME

A new water-scooping air tanker has arrived in Saskatchewan, just in time for wildfire season.

The Saskatchewan Public Safety Agency (SPSA) has invested in a CL-215T air tanker to provide a stronger wildfire response in the province. The CL-215T will replace the obsolete CL-215 in the SPSA's aerial wildfire suppression fleet.

"Our government's strategic investment into our air operations protects the people, property and resources of Saskatchewan," Corrections, Policing and Public Safety Minister Christine Tell said. "The investment of \$37.3 million will allow our responders to better protect, lives, communities, major infrastructure and other values."

NATIONAL IMMUNIZATION AWARENESS WEEK

Immunizations are not just about protecting the individual person receiving it. They also provide indirect protection to your family, friends and community. If enough people are vaccinated, it's difficult for a disease-causing microorganism to gain a foothold in a community. Known as herd immunity, this protection helps ensure the health of people who can't get vaccinated, because there are fewer infected individuals around to pass along the infection.

Are you up-to-date? Adults need vaccinations too.

For example, any injury to the skin contaminated with soil or manure – indoors or outdoors - could let tetanus spores into a wound and cause a tetanus infection, including animal bites and intravenous drug use – not just rusty nails or old metal. A tetanus booster is needed every 10 years after the age of 18.

PROVINCE PROVIDING NEARLY \$2 MILLION FOR REGINA AND SASKATOON TRADES AND SKILLS CENTRES

Minister of Immigration and Career Training Jeremy Harrison announced the Government of Saskatchewan will be providing \$1.92 million in funding to the Regina and Saskatoon Trades and Skills Centres for continued skills training program delivery and administration.

"Saskatchewan is full of opportunities in the trades, and our government supports job seekers who are looking to develop their skills and pursue their careers in trade professions," Immigration and Career Training Minister Jeremy Harrison said. "This funding will enable the effective and successful delivery of skills training programs that grow and develop our provincial labour force."

HERITAGE MONTH

Saskatchewan has proclaimed May as Jewish Heritage Month, which recognizes and honours the legacy, and history of Jewish Canadians across the nation.

"Our government is proud to proclaim May as Jewish Heritage Month in Saskatchewan and recognize the contributions Jewish communities have made to our province," Parks, Culture and Sport Minister Laura Ross said. "Jewish people have called Saskatchewan home for more than a century, predating the province joining confederation in 1905. Early Jewish immigrants helped build our province by establishing farming communities and helping create a life for those who live here today."

GIVE WILD ANIMALS SPACE

Give wild animals space

Seeing a wild animal can be exciting and special but they are best appreciated from a distance, for your safety and theirs. While wild animals usually avoid people, they might attack, if they feel threatened, are

sick, or are protecting their young or territory.

Tips:

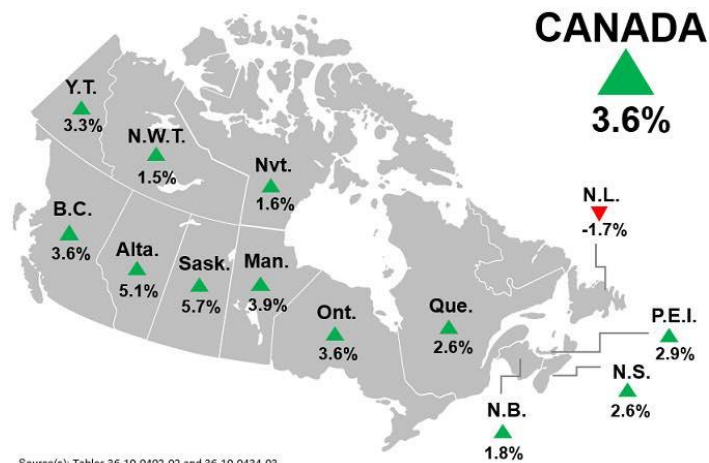

- 🚫 Never pet, handle, or feed unknown animals
- 🐍 Leave snakes alone
- 🔍 Watch your children closely around animals
- 💉 Vaccinate your cats, ferrets and dogs against rabies
- 💉 Get a tetanus booster if you have not had one recently (you should get one every 10 years as an adult)
- 👢 Wear boots and long pants when you are in areas with venomous snakes

SASKATCHEWAN LEADS THE NATION IN ECONOMIC GROWTH

Saskatchewan is once again leading the nation in one of Canada's key indicators of economic growth. Today, Statistics Canada released the 2022 Real Gross Domestic Product report, showing Saskatchewan with an increase of 5.7 per cent from 2021, ranking first among the provinces.

In 2022, the agriculture, forestry, fishing and hunting industry increased by 45.6 per cent from 2021, the highest percentage change among Saskatchewan industries.

"Saskatchewan's economy has been leading the country for many months and it's no surprise that our economic growth led the nation for 2022," Premier Scott Moe said. "Combined with significant private sector investment, it is clear Saskatchewan has the food, fuel and fertilizer the world wants and needs, which is translating into good jobs and growth that works for everyone."

**CELEBRATING EARLY CHILDHOOD EDUCATORS IN
SASKATCHEWAN**

May is Early Childhood Education Month!

This month, let's celebrate the **important role** that early childhood education plays in giving children the opportunity to grow and thrive.

saskatchewan.ca

The Government of Saskatchewan is pleased to recognize the month of May as Early Childhood Education month, and has proclaimed May 10, 2023, as Early Childhood Educator (ECE) Appreciation Day.

"We recognize the role early childhood education plays in helping our children get the best possible start in life," Education Minister Dustin Duncan said. "To the almost 2,800 early childhood educators in Saskatchewan, we say thank you for providing a safe and positive learning environment where our youngest learners can play, learn and grow."

MYSASKHEALTHRECORD MOBILE APP NOW AVAILABLE

A new mobile app from eHealth means that Saskatchewan residents who have MySaskHealthRecord can now see their health records on their cell phones.

MySaskHealthRecord is a secure website that gives residents quick and easy access to your personal health information. Once registered, MySaskHealthRecord allows users to see laboratory test results, medical imaging reports, immunization history, prescription history, and clinical visit history. It also offers users the ability to add their own information to track and generate reports, set medication and appointment reminders, and share information with other MySaskHealthRecord users.

The MySaskHealthRecord mobile app has the same functionality as the web-based version of the tool. [Watch app demo.](#)

“MySaskHealthRecord is an important tool, allowing Saskatchewan citizens the ability to see their personal health information in a timely way for better understanding and decision making,” Melville-Saltcoats MLA Warren Kaeding said on behalf of Health Minister Paul Merriman. “The app makes this information even more accessible.”

THOUGHT OF THE DAY

Your words sow seeds in your children's hearts. From those seeds spring up either confidence or uncertainty, dignity or dishonor, worth or worthlessness.

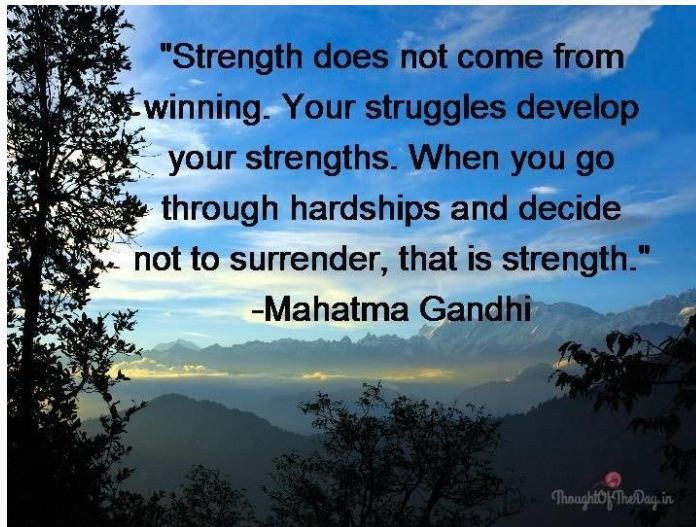

Your words create the beginning of their life stories, and they will carry this story with them always.
